About Overdraft

What is Overdraft?

Can I have more than one coverage?

An overdraft is when you spend more than you have in your account. This could happen anytime you make a purchase, schedule a payment or withdraw money and you don't have enough to cover it.

No, you're not able to "stack" or "layer" multiple overdraft coverages on a single checking account.

For more information about Overdraft, see the FAQ section of our help center.
